Backend Development: Node.js, Express.js, MongoDB, RESTful APIs

Tools: AWS, Git, Postman, Vercel, Render

PROJECTS

Reboost | React.js, TailwindCSS, Chrome Extensions API (Storage, Alarms) **Oct 2024 - Present**

[Chrome Web Store](#) | [Source Code](#) | [Official Website](#)

- Solo-developed Reboost, a Chrome extension featuring 2 main functions: Hydration Tracker and Custom Reminders.
- Achieved a 4.7-star rating, with 100 installs and 70+ weekly active users (as per Google Analytics).
- Featured on the Chrome Web Store after meeting all requirements, earning the official publisher badge with a clean record of trust and compliance.

Careerly | React.js, Node.js, Express.js, MongoDB, Gemini API, TomTom API **Nov 2024 - Dec 2024**

[Official Website](#)

- Led a team of 4 members in the development of a platform for job seekers with 3 key features: Resume Builder, AI-powered Interview Prep, and Tailored Job Matches.
- Managed the database and developed Feature 2: a full-stack AI-driven interview prep system using the Gemini AI API, implementing complete CRUD functionality.
- Designed the overall UI for a user-friendly interface and compiled final project/code for deployment, ensuring platform readiness and performance.

EDUCATION AND TRAINING

Full-Stack Web Development **July 2024 - Dec 2024**

Uplift Code Camp

- Completed a 6-month intensive MERN stack program, building full-stack applications and honing skills in React.js, Node.js, Express and MongoDB

Bachelor of Science in Civil Engineering **June 2018 - June 2023**

Cebu Institute of Technology - University
